BRING LONDON HOME

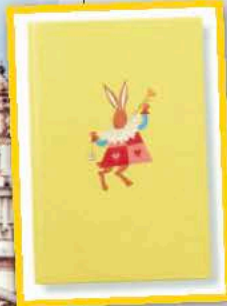

ENGLAND'S CAPITAL CITY IS A CENTER FOR ART, ENTERTAINMENT, FASHION AND CULTURE

I love everything about London," says famed American fashion designer Vera Wang. "I love the city. I love the food – which is something you couldn't have said 40 years ago. I think it's a very beautiful city." London is also on Europe's cutting edge when it comes to the arts and fashion. The city boasts a network of artists and designers seeking to create work that's both inventive and socially responsible. "It's a very fashion explorative and creative kind of environment for young designers," says Vera, who comes home inspired every time she visits. "It's one of my favorite places in the world." —Reporting by Fortune Benatar
